

FIRST BRUSH / TRAINING BRUSH / LEARN TO BRUSH

- Clean toothbrush regularly and between each use with warm water.
- Inspect toothbrush before and after each use and discard if worn or damaged.
- Do not boil, steam or microwave sterilize. Do not put in the dishwasher.
- Replace toothbrush regularly (after 1–2 months use).

⚠ WARNING- For your child's safety and health!

- Toothbrushing should be supervised by an adult. Do not let your young child walk or crawl around with the toothbrush in his/her hand or mouth.

ORAL CARE RABBIT

- Wash Oral Care Rabbit before first use.
- Clean regularly and between each use with warm water.
- Simply put your fingers in the rabbits ears and softly rub your baby's teeth or gums.
- Machine washable up to 104° F / 40°C , can be tumble dried (low temperature only) and ironed (low temperature only).
- Can be sterilized by boiling, steam or microwave steam sterilizing. However, if you choose to sterilize, the material may shrink and/or discolor slightly.
- Not usable for cold water sterilization. Do not dry clean.
- Do not bleach.

⚠ WARNING- For your child's safety and health!

- Inspect product before and after each use and discard if worn or damaged!
